This Harley Davidson Sportster 1200XL low is a beauty! It is a 2007, but it only has 1400 total miles. That's right, not 14,000, but 1400! It has a brand new battery, the tires are in great shape, and it purrs like a kitten (or should I say tiger). I'll throw in the maintenance manual, a case of oil, a new filter, and a barely used bottle of chrome polish. You must be endorsed to take it for a test ride.
